

Thorpe Marsh Green Energy Hub Community Meetings

February – March 2026

Fidra Energy invites you to a community meeting for our Thorpe Marsh Green Energy Hub project.

Our project

Thorpe Marsh Green Energy Hub is a battery energy storage system which we are currently constructing on part of the site of the former Thorpe Marsh Power Station.

Once complete it will have capacity to power 800,000 homes, helping to make the electricity network in the UK and Yorkshire more secure, self-sufficient and resilient.

Come and meet us

Our project team will be on hand to tell you about our project, construction activities and our new Community Fund, as well as answer any questions you may have.

The meetings are open to the public — everyone is welcome and no pre-registration is required.

Venue	Date	Time
Barnby Dun Parish Hall, Top Road, Barnby Dun, DN3 1DA	Wednesday 25 February 2026	6.30pm – 8.00pm
Arksey Primary School, Ings Way, Arksey, DN5 0TE	Wednesday 4 March 2026	6.30pm – 8.00pm
